

Baroota Pumped Hydro and Solar Project – “Drop-in” Community Information Session

Rise Renewables is proposing to develop the Baroota Pumped Hydro and Solar Project, located adjacent to the Baroota Reservoir, 15 km north-east of Port Germein. A Development Application will be available for viewing during the public notification period to be shortly determined by the SA Government. The session is an opportunity to gain firsthand information regarding the Project, ask questions, provide feedback and learn more about potential opportunities the Project may bring to the community.

Rise Renewables invites anyone interested in the Project to the following “drop-in” information session:

3 pm – 6 pm, Thursday 19th July 2018
Port Germein Bowling Club
